A first-level heading

A second-level heading

A third-level heading

A fourth-level heading

A fifth-level heading

A sixth-level heading

Styling text

This is bold text.

This text is italicized.

~~This was mistaken text~~.

This text is *extremely* important.

All this text is important.

This is a ~subscript~ text.

This is a ^superscript^ text.

This is an <u>underline</u> text.

Quoting text

Text that is not a quote

> Text that is a quote

Quoting code

Use `git status` to list all new or modified files that haven't yet been commited.

Some basic Git commands are:

```
git status
git add
git commit
```

Syntax highlighting

```
require 'redcarpet'
markdown = Redcarpet.new("Hello World!")
puts markdown.to_html
```

Links

This site was built using [GitHub Pages](#).

Section Links

Link to the previous section: [Link text](#)

Custom anchors

Some body text of this section

Some text I want to provide a direct link to, but which doesn't have it's own heading.

(... more content...)

[A link to that custom anchor](#)

Line breaks

This example

Will have a blank line separating both lines

Images

Lists

- George Washington

- John Adams

- Thomas Jefferson

1. James Madison
2. James Monroe
3. John Quincy Adams

Nested Lists

1. First list item

   - First nested list item
     - Second nested list item

    2. First list item

        1. First nested list item
        2. Second nested list item

    3. First list item

        - First nested list item
            - Second nested list item

Task lists

- [x] #739
- [ ] https://github.com/octo-org/octo-repo/issues/740
- [ ] Add delight to the experience when all tasks are complete 🎉
  - [ ] Subtask that is unfinished
  - [x] Subtask that is finished

Using emojis

@octocat 👍 This PR looks great - it's ready to merge! :shipit:

Paragraphs

You can create a new paragraph by leaving a blank line between lines of text.

Footnotes

Here is a simple footnote[1].

A footnote can also have multiple lines[2].

Alerts

> ⓘ **Note**
> Useful information that users should know, even when skimming content.

> 💡 **Tip**
> Helpful advice for doing things better or more easily.

> **Important**
> Key information users need to know to achieve their goal.

> **Warning**
> Urgent info that needs immediate user attention to avoid problems.

> **Caution**
> Advises about risks or negative outcomes of certain actions.

Hiding content with comments

The following is a comment you can't see:

Ignoring Markdown formatting

Let's rename *our-new-project* to *our-old-project*.

Tables

Left-aligned	Center-aligned	Right-aligned
git status	git status	git status
git diff	git diff	git diff
git pull	git pull	git pull

---

1. My reference.↩

2. To add line breaks within a footnote, prefix new lines with 2 spaces. This is a second line.↩
